Research Census Data

http://www.data.gov/
A United States Government website that is leading the way in democratizing public sector data and driving innovation. The data is being surfaced from many locations making the Government data stores available to researchers to perform their own analysis. Developers are finding good uses for the datasets, providing interesting and useful applications that allow for new views and public analysis.

US Dept of Education website devoted to education data that includes data tools and data sets.

http://www.eddataexpress.ed.gov/
US Dept of Education website devoted to education data that will help you view some of the important data that the U.S. Department of Education collects from the 50 states, the District of Columbia, and Puerto Rico.

http://dashboard.ed.gov/
To monitor the country's progress towards reaching our goal, the U.S. Department of Education presents the *United States Education Dashboard*. The *Dashboard* is intended to spur and inform conversations about how to improve educational results.

http://nces.ed.gov/ccd/elsi/
The Elementary/Secondary Information System (ELSi) is an NCES web application that allows users to quickly view public and private school data and create custom tables and charts using data from the Common Core of Data (CCD) and Private School Survey (PSS).

http://ocrdata.ed.gov
The Civil Rights Data Collection (CRDC) collects data on key education and civil rights issues in our nation's public schools for use by the U.S. Department of Education's Office for Civil Rights (OCR), other Department of Education offices, and other policymakers and researchers. This data collection provides information about students in public elementary and secondary schools on a variety of indicators, including enrollment, access to educational programs or services, and academic proficiency results, "disaggregated" or broken out, by factors including race, ethnicity, sex, and disability.
