Why has my district's allocation changed?

1) Federal funding for SY 2014 has remained constant.
2) Allocations are required by the federal government to be calculated with the most recent census data available. SY 2014 allocations were calculated using 2011 Census estimates, while SY 2015 will be calculated using the 2012 US Census. Districts will see large variances in funding if the census reflects a large variance in ages 5-17 residents. There may be a decrease in funds due to sequester cuts.
3) This estimate includes all districts eligible for Perkins funding in the 2014 school year as of May 8th, 2013. Districts who are no longer eligible for Perkins funding as of the stated date total $8,077.00 of funding that is now spread over the entire state. However, districts who have not been eligible in the past, but will be eligible in the 2014 school year total $7,606.00 of funding that must be taken from each district proportionally throughout the state, resulting in a loss of funding for districts.
4) As pathways continue to develop, funding will be more widespread throughout the state as federal contribution remains constant.
