The Kansas Enrichment Network helps build and expand school-based programs to enhance learning opportunities for students and provide technical assistance to new and established programs.
The Network envisions a state where all children and youth can participate in safe, affordable, and high-quality out-of-school activities that provide academic assistance and help working families. Out-of-school programs offer an opportunity to engage youth and help them learn, grow, and prepare for the future.
The Network strives to raise awareness, build capacity and sustainability, and promote the importance of such programs.
