

Kansas State Reading and Assessment Guide

(based on the KS State Reading Standards
approved by the Kansas State Board of Education on July 2003)

Grade 6th

Developed by the Kansas State Department of Education
and
Reading Specialists from the Private Sector
in Kansas

Revised November 2007

Standard/Benchmark/Indicator

R.6.1.3.1

▲ determines the meaning of words or phrases using context clues (e.g., definitions, restatements, examples, descriptions, comparison-contrast, clue words) from sentences or paragraphs.

Explanation of Indicator

When a student encounters an unknown word or phrase, he should be able to use the clues from the surrounding words to figure out the meaning of the unknown word or phrase.

Instructional Example

Choose a text or an article that contains unfamiliar text that can be supported through the contextual information. The student reads the article and highlights unfamiliar text. Read the text to the student and brainstorm with the student which context helped him/her to understand the unfamiliar text. Ask the student to underline the text used for understanding the unfamiliar word.

Test Specification Notes (official)

- MC
- PB and NPB
- Passage types: N, E, T, P
- Tested words should be 2 or more grade levels above the student's grade level.
- There must be sufficient context for students to determine the meaning of the tested word. Generally speaking, the higher the tested word is above the student's grade level, the more explicit the context clues should be.

(recommended)

Interpret the e.g. lists as i.e. lists.

State Assessment Sample Item

In Step 10, the word luminous probably means

In the second paragraph, the word herbivores refers to animals that.

In the first paragraph, the phrase "standard fare" probably means

Read the sentence below from the passage.

Standard/Benchmark/Indicator

R.6.1.3.4

▲ determines meaning of words through knowledge of word structure (e.g., ▲ root words, ▲ prefixes, ▲ suffixes).

Explanation of Indicator

The student knows how adding beginnings or endings to words change the meaning of the word.

Instructional Example

Encourage the student to sort words by prefix and suffix and tell how the root word meaning is changed by the prefix or suffix.

Test Specification Notes (official)

MC

PB and NPB

Passage types: N, E, T, P

Roots: grade-appropriate root words

Prefixes: auto-, con-, fore-, multi-, sub-, up-

Suffixes: -age, -al, -ize/-yze, -ous, -some

Tested word (i.e., grade-appropriate base word plus prefix and/or suffix) can be at or above the student's grade level.

(recommended)

Only test examples marked with ▲.

Only test the prefixes and suffixes listed above.

State Assessment Sample Item

Knowing the meaning of the prefix *sub-* helps the reader understand that the word "substandard" means

- A. not standard.
- B. standard again.
- C. below standard.
- D. standard before.

Standard/Benchmark/Indicator

R.6.1.3.5

▲ identifies and determines the meaning of figurative language including ▲ similes, ▲ metaphors, ▲ analogies, hyperbole, onomatopoeia, personification, and idioms.

Explanation of Indicator

The student understands the meaning of word images and figures of speech.

Instructional Example

Have the student locate a figure of speech within a text and discusses the meaning with the student.

Test Specification Notes (official)

- MC
- PB and NPB
- Passage types: N, E, T, P
- Items that ask students to identify the type of figurative language that a particular phrase or sentence is an example of, can use 1 or 2 “non-▲” examples of figurative language from the indicator as distracters, but **not** as the correct answer.
- Items may request to identify or to determine the meaning of figurative language, **not necessarily both**.

(recommended)

Only test examples marked with ▲.

When the answer is metaphor, simile can be one of the distracters. However, when the answer is simile, do not use metaphor as a distracter (because simile is a type of metaphor).

Make sure there is only one possible CA (e.g., if the simile is “winter is like an angry giant,” do not use personification as a distracter).

Use the word “contains” when the figurative language is only one part of a more complex sentence (see second sample item).

State Assessment Sample Item (see more examples in item specifications)

Read the sentence below from the passage.

[space]

The snow was a white blanket on the ground.

[space]

The sentence is an example of which type of figurative language?

Read the sentence below from the passage.

[space]

Radio signals move the way ripples move in a pond when you drop a stone, spreading out from the middle and getting larger and larger.

[space]

The sentence contains an example of which type of figurative language?

In paragraph three, the phrase “Victor sounded like his mouth was full of cotton balls” probably means that Victor

Standard/Benchmark/Indicator

R.6.1.4.2

▲ understands the purpose of text features (e.g., title, headings, subheadings, topic and summary sentences, graph/charts and maps, table of contents, pictures/illustrations, boldface type, italics, glossary, index, captions, sidebars, underlining, numbered or bulleted lists) and uses such features to locate information in and to gain meaning from appropriate-level texts.

Explanation of Indicator

The student understands how the features located in text (e.g., title, graphs/charts and maps, table of contents, pictures/illustrations, boldface type, italics, glossary, index, headings, subheadings, *topic* and summary sentences, captions, sidebars, underlining, numbered or bulleted lists) can help him understand the meaning of the text.

Instructional Example

The student skims and scans a text that contains a variety of text features and discusses their purposes. The student then skims and scans a different text containing similar text features and explains how each feature contributed to his/her understanding of the text.

Test Specification Notes (official)

- MC
- Primarily PB; NPB acceptable for certain text features and uses of those features (e.g., using table of contents, headings, subheadings, and indexes to locate information in text)
- Passage types: N, E, T, P
- Use the language of the indicator in stem and answer choices.
- Items may include textbox as a text feature.

(recommended)

Test only features in the e.g. list.

Use the name of the text feature in the stem or ACs.

Subheadings used as ACs should be in the same order as subheadings in the passage.

State Assessment Sample Item (see more examples on website)

The bulleted list at the beginning of the recipe helps the reader understand

The purpose of the sidebar is to

The purpose of the title is to

- A. introduce the topic of the passage.

Standard/Benchmark/Indicator

R.6.1.4.5

▲ uses information from the text to make inferences and draw conclusions.

Explanation of Indicator

The student is able to make a prediction or draw a conclusion about the text.

Instructional Example

Provide the student with a two-column chart categorized with the words “Questions” on the left side and “Inferences” on the right side. The student uses his/her prior knowledge to generate questions for the left-side column and writes in the right-hand column what he/she thinks the author might say to answer the questions.

▲ analyzes how text structure (e.g., sequence, problem-solution, comparison-contrast, description, cause-effect) helps support comprehension of text.

Explanation of Indicator

The student is able to tell how an author organizes material or information in the text (e.g., sequence, problem-solution, comparison-contrast, description, cause-effect).

Instructional Example

Have the student highlight portions of the text that characterize various text structures.

Test Specification Notes (official)

- MC
- PB
- Passage types: E, T, P
- Questions may focus on the text structure of the whole passage or parts (i.e., important paragraphs or sections) of the passage.
- Use the language of the indicator in stem and answer choices (e.g. “text structure”, “sequence”, “cause and effect”). Do **not** use the term “chronological order”.
- Do not use problem-solution and cause-effect as ACs in the same item.

(recommended)

Test only structures in the e.g. list.

Do not hyphenate (e.g., cause-effect).

State Assessment Sample Item
