

Kansas Migrant Education Program (MEP)
Priority for Services Form
2022-2023 School Year
(Using Data from 2021 - 2022 Performance Period)

DIRECTIONS

Every Kansas Migrant Education Program (MEP) is required to maintain a list of eligible migrant students as well as a listing of the students actually receiving migrant services. The eligibility list should indicate whether or not a student is determined to be a Priority for Services student. The Priority for Services Form is intended to serve as documentation for audit purposes and to assist the MEP in determining which migrant students should receive services first.

Whether or not an eligible migrant student meets the Priority for Services criteria, it is important that every MEP enter into the Migrant system the at-risk information for migrant students. Not only does this provide important information should the student move to another district or state, but it is also data that is used in determining a district's MEP allocation. The Priority for Services form is one method for collecting the information that is then entered into the Migrant system.

All Kansas Migrant Education Programs (MEP) are to have the following documentation:

- List of eligible migrant students
- List of students identified as Priority for Services students
- List of services available
- List of students receiving migrant services

Each district participating in the Migrant Education Program must complete the Priority for Services Form for each Priority for Services student. All data must be entered for every migrant student on the Migrant system. The completed forms are to be on file at the district and readily available when requested by appropriate entities (i.e. auditors, KSDE staff).

To be identified as a Priority for Services migrant student, there must be an interruption of services during the regular school year (items 1 thru 4) **and** the student must have at least one check in items 5 thru 17.

Following is additional information on the Priority for Services requirements:

- Interruption during the Performance Period - the interruption has to occur within the preceding 12 months. For **2022-2023**, an interruption during the Performance Period would have occurred between September 1, 2021 and August 31, 2022.
 - The **interruption has to relate to the migrant lifestyle**. Students going to Mexico for a two-week vacation do not qualify as having an interruption.
 - Out of School Youth (OSY) experience an interruption of education and are unlikely to meet State Standards because they do not attend school and have not graduated from high school.
- The **at-risk criteria** have to occur during the current performance period or within the **previous two performance periods**.
 - State assessment results from other States must be verified through school records or through data entered into that Migrant Data System.
 - Norm-referenced tests (NRTs) refer to the nationally normed assessments. Use the reading and/or mathematics norm-referenced assessment results rather than science or social studies results, K-3 screening or diagnostic reading assessments.
 - The Language Assessment Scales (LAS), the Idea Proficiency Test (IPT), and the Language Proficiency Test Series (LPTS) refer to commercial English language proficiency tests, and the Kansas English Language Proficiency Assessment (KELPA).
 - A student is considered to be in a class that is not age appropriate when the student is older than the typical student at that grade. For example, a 12-year old being placed in a 3rd grade class in which students are usually 8 or 9 years old would be in a class that is not age appropriate.
 - Grades below average performance refer to grades at the end of a grading period or at the time of withdrawal from a school. These do not refer to the daily grades given in class.
