# Secretary's Report

The Special Education Advisory Council (SEAC) works to ensure that the state of Kansas is engaging stakeholders on topics related to serving students with exceptionalities, their families and the agencies that support both the students and their families. To clarify, Kansas uses the term students with exceptionalities to include students with disabilities as well as students with Giftedness (Kansas Requirement). Serving students with exceptionalities in Kansas is the primary focus of SEAC. The primary motivation for individuals to be selected to serve on SEAC is a focus on quality improvement in the Kansas education system, particularly as it relates to serving students with exceptionalities. SEAC has been productively engaged in fulfilling its legal commitments and mission on behalf of students with disabilities including students with Giftedness. The SEAC members meet a minimum of four times each year, discuss and review issues of significance related to meeting the needs of students with disabilities and Giftedness, and advise the Special Education and Title Services (SETS) team as well as the Kansas State Board of Education (KSBE) on matters regarding programs and services for students with exceptionalities.

COVID had a substantial impact on the work of SEAC during this year. Meetings were held virtually throughout the school year while school districts were following the Kansas "gaiting" criteria on whether or not to serve students in person, through a hybrid model, or through a remote model. These environments changed continuously for many school districts depending on the viral load in each district's region. We know that this had an impact on serving students with exceptionalities; however, SEAC continued to advocate for ALL student to receive appropriate special education services in lieu of each child's circumstances. Many agencies did bring students with disabilities into the buildings to receive their special education supports and services while general education students were served virtually.

Kansas developed a Navigating Change document for school districts which outlined supports and services for districts and agencies serving school districts during the 2020-2021 school year. SEAC had regular discussions about any issues that were brought to meetings regarding serving students with disabilities appropriately.

As the Secretary for SEAC, I am proud of the accomplishments made during this difficult year of the pandemic. We continued to address key issues brought by the State Department and members relative to how to keep the focus on our students. A list of accomplishments can be found in the Council Accomplishments section of this Annual Report. I will add here that we expanded our time to meet with the Kansas State Board of Education by providing quarterly updates during State Board meetings. This kept the State Board apprised of the issues we were discussing as well as responded to State Board questions and recommendations.

Sincerely,

Bert Moore  
Director Special Education and Title Services

Secretary of the Kansas Special Education Advisory Council

## Introduction

The Kansas Special Education Advisory Council (SEAC) held five meetings during the 2020-2021 school year. The January meeting was a two-day meeting and included members of the Kansas State Board of Education (KSBE).

SEAC advises the Kansas State Board of Education in six key areas as required by the regulations of the Individuals with Disabilities Education Act (IDEA), and Kansas statutes. Those areas include:

- Advise the State Education Agency (SEA) of unmet needs within the state in the education of children and youth with exceptionalities;
- Comment publicly on any rules and regulations proposed by the state regarding the education of children and youth with exceptionalities;
- Advise the SEA in developing evaluations and reporting on data to the Secretary under Section 618 of the Act;
- Advise the SEA in developing corrective action plans to address findings identified in federal monitoring reports under Part B of the Act;
- Advise the SEA in developing and implementing policies relating to the coordination of services for children and youth with exceptionalities; and
- Advise on the education of eligible students with disabilities who have been convicted as adults and incarcerated in adult prisons.

## Kansas Special Education Advisory Council

The major responsibilities of the council are to advise, consult and provide recommendations to the Kansas State Board of Education regarding matters concerning special education services. The SEAC is composed of individuals in, or concerned with, the education of children with exceptionalities. The council performs such duties as specified by IDEA and as outlined in the Kansas SEAC Bylaws.

The primary role of the council is to advise and assist the KSDE to achieve excellence, equity, and lifelong learning opportunities for all students in Kansas. As such, it is committed to representing individuals with diverse and changing educational needs. This responsibility leads the SEAC to support the vision and mission of KSBE, the Division of Learning Services (DLS) and the Special Education, and Title Services team.

## Council Leadership

The chair for the 2020-2021 year was Heath Peine. He was unanimously elected to fulfill the obligations of the chair at the April 2020 council meeting.

## Operational Standards

The SEAC's 2020-2021 meeting schedule was as follows:

Meeting Date	Location

Official minutes of the meetings were kept, reviewed at each following meeting for accuracy, and posted on the KSDE Special Education and Title Services team website at <http://www.ksde.org/Default.aspx?tabid=561>.

A public comment period was offered at each regular SEAC meeting, and written public comment was accepted throughout the year.

## Council Accomplishments
