2024-2025 LICENSED PERSONNEL GUIDE

Reporting Timeline, Statutes and Regulations

The Licensed Personnel Guide is designed to assist employers and school district staff in answering questions regarding appropriate licensure for specific staff assignments. In you have questions regarding the type of endorsement required for a particular teaching assignment not listed in this publication, please keep the following in mind:

1. Pre-kindergarten to grade 12 educators working in schools should be licensed at the level and endorsed in the content area appropriate for the assignment.
2. Teachers providing direct instruction should have a content assignment and be licensed accordingly.
3. Charter and virtual school personnel should be licensed at the level and endorsed in the content area appropriate for the assignment. All charter and virtual schools have building numbers and personnel assigned to these buildings should be accurately reported.
4. Educators who hold an Elementary Education K-9 endorsement may teach Math, English Language Arts, Science, and History, Government and Social Studies to middle school students thru grade 8.
5. Persons with secondary content endorsements at the grades 7-12 level will be allowed to teach that content subject only to grade 6 in a middle school. Teachers with secondary content endorsements cannot teach in an elementary setting. Middle School (grades 5-8) is appropriate for elementary grades 5-6 levels.
6. The verified mentoring experience is a requirement of the State to upgrade to the professional level of licensure and must be completed during the two-year validity of an initial/conditional license. The educator must be employed in an area of endorsement on his/her license and the mentoring experience must be completed in that area of endorsement. The mentoring experience cannot be completed in alternate settings or assignments that only require a "licensed at level" educator.
7. Please make sure the data entered in this report is accurate. This data determines mentor payment requests as well as other State and Federal reporting requirements.

The courses available on your Licensed Personnel Report are linked to the mapping your district completed through the Kansas Course Code Management System. If you have not completed the Kansas Course Code mapping, you will need to do so prior to completing your Licensed Personnel Report.

If you have licensure questions, please contact an education program consultant on the Teacher Licensure Team. Contact information can be accessed at Teacher Licensure (TL) (ksde.org).

NOTES AND MISCELLANEOUS INFORMATION

1. For each assignment, enter the corresponding number of classes. In general, an elementary self-contained assignment will be entered as one class. In middle schools and high schools, teachers should have multiple classes. Specialist or administrator assignments should be counted as one class.
2. Please refer to the CIP funding code for CTE assignments. Questions about approved funding codes should be directed to:

CTE/Pathways Help Desk
Phone: (785) 296-4908
Email: pathwayshelpdesk@ksde.org

3. Second assignments relating to content are required for all SPED and ESOL teachers.

APPENDIX

4. Service centers, cooperatives, and interlocals are expected to complete the Licensed Personnel Report. If a teacher works in multiple buildings, an assignment and class count will need to be entered for each. The shared staff function should be used to report staff in multiple LEAs.

APPENDIX

Out-of-State Applicants

Teaching in Kansas requires a Kansas license issued through the Kansas State Board of Education. **You cannot teach in Kansas based on an out-of-state license or certificate.** An educator must apply for a Kansas license must be obtained before teaching in Kansas. If all requirements for Kansas licensure have not been met, it may be possible for an individual to obtain a Temporary One-Year Nonrenewable License, Interim Alternative or a Transitional License during which time they can complete any unmet Kansas requirements. Kansas licensure is based on completion of approved teacher education programs unless a state is member of the Interstate Teacher Mobility Compact: Compact Map – Teacher Compact or experience requirements are met as prescribed in K.S.A. 48-3406.

Restricted Teaching License and Alternative Pathways

This pathway is for an individual who holds an accredited bachelor's degree in a secondary education content area or holds an accredited bachelor's degree and is a heritage world language speaker. This pathway provides an opportunity for an individual to enroll in a state-approved educator preparation program, pass the required Praxis content exam, and teach while completing professional education pedagogy coursework to become a fully licensed teacher. This license is only available for secondary content areas (middle and high school) and all level subjects of art, health and physical education, music, and world language. This license is valid only in the district in which the individual is hired.

Limited Residency License (LRL)

This pathway is for an individual who holds an accredited bachelor's degree and at least one year of special education paraprofessional experience. The pathway provides an opportunity for an individual to enroll in a state-approved educator preparation program, complete an initial prescribed set of program coursework (six credit hours), and teach while completing remaining professional education pedagogy coursework to become a fully licensed teacher. The license endorsements are either high-incidence special education or low-incidence special education. This license is valid only in the district in which the individual is hired.

Limited Teacher Apprentice License (LTAP)

This pathway is for an individual who currently serves as an elementary and/or special education paraprofessional at the early childhood to 6th grade level. This pathway provides an opportunity for an individual who holds an accredited bachelor's degree or does not hold a bachelor's degree to enroll in a state-approved educator preparation program to become a fully licensed teacher. This program is offered at one state-accredited institution. The route allows one the option to qualify for a LTAP license once a prescribed set of coursework is completed. If the individual chooses to apply for a LTAP license, the individual will teach while completing the remaining professional education pedagogy coursework. This license is valid only in the district in which the individual is hired. If the educator opts out of the LTAP license route, she/he must continue to serve as a paraprofessional while the program is completed.

Limited Elementary Residency License (LERP)

This pathway is for an individual who holds an accredited bachelor's degree. The pathway provides an opportunity for an individual to enroll in a state-approved educator preparation program, complete an initial prescribed set of program coursework (six credit hours), and teach while completing the remaining professional education pedagogy coursework to become a fully licensed teacher. The license endorsement is pre-k-sixth-grade elementary education. This license is valid only in the district in which the individual is hired.

APPENDIX

Early Childhood Programs/Settings Acceptable as "Accredited Experience" Related to Licensure Upgrade/Renewal

Experience in the following settings may be applicable for license renewal or upgrade IF the teacher holds the appropriate license for the assignment (early childhood, early childhood handicapped, early childhood unified).

A. Early Childhood programs associated with an accredited school district (USD).

1. Title I Preschool, State Pre-K (formerly known as 4-year-old At-Risk program), District Preschool (Kansas Preschool Program, any USD general education administered preschool), Parents as Teachers or Individuals with Disabilities Education Act (IDEA) Part B /619 services (Early Childhood Special Education)

B. Kansas Infant-Toddler/tiny-k/IDEA Part C.

1. A program under the administration of the Kansas Department of Health and Environment (KDHE) and providing early intervention services to infant/toddlers with disabilities and their families (approved as a tiny-k Provider – IDEA Part C/Early Intervention Program*).

C. Regular (General) Education Early Childhood Programs.

1. Kansas Department of Health and Environment Licensed Preschool or Child Care Center Facility that meets at least one of the following:
 - i. Lead teacher or program director in an established licensed preschool who is supervised by an administrator under a formal evaluation system and uses an evidence-based developmentally appropriate curriculum.
 - ii. Lead teacher or program director in an established licensed child care center who is supervised by an administrator under a formal evaluation system and that has an evidenced-based developmentally appropriate curriculum.
 - iii. Preschool or Child Care Center accredited by the National Association of the Education of Young Children (NAEYC).

NOTE: Experience in licensed day care or group day care home will not count.

2. Federally Approved Programs:
 - i. Head Start
 - ii. Early Head Start
 - iii. Programs located on military installations or reservations in Kansas.
3. Elementary: Pre-kindergarten through Grade 3.

APPENDIX

Use of Substitute Teachers

Accreditation Regulation 91-31-34. Board of Education Requirements:

- a. General. Each local board of education shall assure that each school meets the requirements of this regulation.
- b. Staff.
 1. In filling positions for which a certificate/license is issued by the state board, each school shall employ persons who hold certificates/licenses with specific endorsements for the positions held.
 2. If a teacher holding an appropriate certificate/license is not available, a school district shall use a substitute teacher holding a valid Kansas teacher or administrator certificate/license at any level or in any field or subject. A school district shall not allow any person holding a Kansas teaching certificate/license to substitute teach for more than 125 days in the same assignment.
 3. If a substitute teacher holding a valid Kansas teacher or administrator certificate/license is not available, a school district shall use a substitute teacher holding a valid Kansas substitute teaching certificate/license. A school district shall not allow a person holding a substitute teaching certificate/license to teach for more than 90 days in the same assignment.
 4. If a substitute teacher holding a valid Kansas substitute teaching certificate/license is not available, a school district shall use a person who holds a baccalaureate degree and an emergency substitute teacher license. A school district shall not allow a person who holds a baccalaureate degree and an emergency substitute teacher license to teach for more than 45 days in the same assignment.
 - (A) If a person holding a baccalaureate degree and an emergency substitute teaching license is not available, a school district shall use a person who has been licensed by the state board as an emergency substitute teacher. A school district shall not allow any person who does not hold a baccalaureate degree to teach for more than 25 days in the same assignment or more than 60 days in a semester.
 - (B) If a local school board can demonstrate, in writing, an insufficient supply of substitute teachers, the board may appeal to the commissioner of education for authority to allow individuals holding an emergency substitute teaching license based on completion of 60 semester credit hours to continue to teach for an additional length of time not exceeding.
 5. If the state board of education has declared a time of emergency, any person holding a five-year substitute teaching certificate/license or an emergency substitute teaching license with a baccalaureate degree may teach for the duration of the time of emergency in a position made vacant by reason of the emergency.
 6. Each school shall report the names of each certified/licensed staff member on the licensed personnel report or the supplemental licensed personnel report required by the state board. Each certified/licensed personnel staff change that occurs between September 15 and the end of the school year shall be reported on a form prescribed by the state board within 30 days after the staff change.

Note: S.B.R.91-1-203(e) allows an emergency substitute license to be issued to any applicant who has completed at least 60 semester hours of college credit from an accredited college, submitted an application and fee, and been recommended for licensure as an emergency substitute teacher by a local education agency administrator and the president of the local education agency governing board.

APPENDIX

Licensure Review Committee

The Licensure Review Committee is authorized by S.B.R. 91-1-211 to consider appeals from applicants who do not meet regulation requirements, but who do meet certain criteria for forwarding an appeal for consideration. The Commissioner of Education refers appeals to the review committee for consideration. Submission of the appropriate documentation is a requirement for referral by the Commissioner to the Licensure Review Committee. Application does not guarantee that the case will be referred to the review committee.

If the case is referred to the Licensure Review Committee, the application, supporting evidence and documentation will be considered. The applicant is not present during this initial review. The Licensure Review Committee will make a recommendation for approval or denial of the request based on this paper review of the appeal. Applicants will receive written notification of the Committee's recommendation. If the Committee recommends denial of the appeal, the applicant will be given the opportunity to be present at the next available hearing to further appeal their case. Recommendations of the Review Committee are forwarded to the State Board of Education for their final action on the appeal. State Board action will take place at the first available State Board meeting. The applicant will be notified in writing of the decision of the State Board of Education and a license will be issued if appropriate.

The Licensure Review Committee meetings for the school year will be held:

August, October, December, February, April and June.

Applications will be processed for consideration at the first available meeting date. Deadline for submitting materials is four weeks prior to the scheduled meeting date.

Specific questions about the Licensure Review Committee should be directed to Nikk Nelson at nnelson@ksde.org.

Criteria for forwarding appeals for consideration to the Licensure Review Committee

1. Applicant has achieved full standard certification/licensure in another state through an alternative route to certification/licensure (i.e., through a means other than the traditional university delivered system).
OR
2. Applicant has appropriate equivalent experiences to be considered as a substitute for experiences as defined by regulation
OR
3. Applicant is certified/licensed in another state, has accredited experience in the licensure area, but does not qualify for Kansas licensure because Kansas regulation requires that the applicant hold a valid Kansas professional teaching license (library media; school counselor; reading specialist).
OR
4. Applicant is completing an approved program out-of-state and is seeking a conditional license, but does not meet Kansas regulation requirements for the license because their program is established differently than Kansas approved programs. (School psychology programs where the degree is not granted until after the internship is completed).
OR
5. The applicant has documented extreme extenuating circumstances that did not allow them to meet regulation requirements.

APPENDIX

Provisional Endorsements

Two-year provisional endorsements are available in certain content areas for individuals who already hold or are eligible for a Kansas license in another content area. This type of license is authorized by 91-1-203K. The applicant must be employed to teach the content area before a provisional endorsement can be issued or renewed. To determine if a teacher is eligible for a provisional endorsement, the teacher must contact the Licensure Officer of a teacher education institution with an approved program in a subject area allowing a provisional endorsement. Refer to the Kansas Directory of Approved Professional Educational Programs to determine the colleges that offer the desired program. This guide is available on the KSDE website at <https://www.ksde.org> under the **Teacher Licensure** section. The chart in this manual also lists areas in which provisional endorsements are available.

To qualify for the first two-year provisional teaching license the applicant must:

1. Hold a valid conditional or professional license at the appropriate grade level. Some exceptions may be allowed for all level endorsements.
2. Verify completion of 50 percent* of the approved teacher education program in the requested endorsement area;
 - a. SPED provisional endorsements require completion of course work in the areas of characteristics, methods and a practicum. 50 percent of the program is not required.
3. Have a deficiency plan from the licensing officer of a teacher education institution listing the course requirements to complete the full endorsement program;
4. Verify employment and assignment to teach in the provisional endorsement area.

The provisional endorsement may be renewed for an additional two years upon completion of 50 percent of the deficiency plan and verification of continued employment.

School Specialists

School Specialist Programs include:

- Library Medial Specialist
- Reading Specialist
- School Counselor

To qualify for the first two-year provisional school specialist endorsement, the applicant must:

1. Hold a currently valid professional teaching license.
2. Verify completion of 50 percent an approved school specialist program.
3. Have a deficiency plan from the licensing officer of a teacher education institution listing the course requirements to complete the school specialist program.
4. Verify employment and assignment in the school specialty endorsement area.
5. Provisional school counselor endorsements require supervision

AREAS WITHOUT PROVISIONAL ENDORSEMENTS

Provisional endorsements are **NOT** available in the following areas:

- Elementary (EC-LC Generalist)
- School Psychologist
- Building Leadership
- District Leadership

APPENDIX

Licensure Waivers

S.B.R. 91-31-34 allows a school accredited through the Quality Performance Accreditation (QPA) System to request a licensure waiver to assign an individual to teach in a subject or at a grade level not authorized by the educator's Kansas teaching license. The intent of a licensure waiver is to allow a school district to utilize the expertise of teaching staff to meet the educational needs of students. Waivers may be granted for one academic year and are subject to approval by the State Board of Education. If an individual has a deficiency plan to achieve licensure in the field in which the waiver is requested and is making the required progress on that plan, one-year renewals of the waiver may be requested by the school district for two succeeding school years. The following criteria are used to evaluate requests for a licensure waiver.

Form 16 - Accreditation Licensure Waiver is now an online process. To start the online application process, go to <https://online.ksde.org/authentication/login.aspx>. Waiver applications will be accepted between August 1 and February 1 each year. Applications received after February 1 will be returned.

Waiver Criteria

Appropriate Licensure of Staff

1. The teacher must have one of the following valid Kansas Teaching Certificates or Licenses on file with the Kansas Department of Education:
 - a. Initial License
 - b. Professional License
 - c. Transitional License
 - d. Considered on individual basis one of the following:
 - i. One-Year Nonrenewable License
 - ii. Interim Alternative License
2. Substitute or Restricted licenses will not qualify for waiver consideration.
3. The teacher must not be eligible for a provisional endorsement in the waiver area.
4. The teacher must not be eligible for review by the Licensure Review Committee for the requested endorsement area.
5. A waiver request is required if any portion of an assignment is outside the area of endorsement.
6. If granted, the waiver is effective for the academic year in which issued. Waivers are not effective until a valid certificate or license is in force as listed in #1 above.
7. Waiver applications must be received in the office of Teacher Education and Licensure, Kansas State Department of Education by November 1. If a district hires or reassigns a person requiring a waiver after the start of the school year, and the individual cannot meet the current enrollment requirement until the second semester, the completed waiver request must be submitted by February 1 of the current academic year.
8. The applying district must submit a complete waiver application electronically before the waiver application will be reviewed.
9. All appropriate documentation must be kept on file, as KSDE will conduct an annual, random audit of all waiver applications.
